**EDITORIAL**

**Meet people, be visual and network!**

Artween aims to be the leading social networking site devoted to art, so we don't intend to remain merely virtual. We want to meet you too.

At the venues where galleries and collectors rub shoulders, where art-lovers and artists converse, where critics and journalists form their opinions. Artween is very much part of the international art scene too, bringing together all the denizens of the art world on the internet.

Having attended the ArtParis artfair, Artween is now heading to Belgium for the Art Brussels artfair from 24-27 March 2008.

The moral of the story: if you won't come to Artween, Artween will come to you!
